

ProList Keeps on Growing

New Year starts with a bang!

ProList, Inc. is an Industry Innovator in data management and direct mail services solutions.

While many in the direct mail industry continue to struggle in today's difficult economy, ProList is bucking the trend and growing. 2010 looks to be a big year for ProList and our clients.

As you may have heard, Stockton Inc. recently ceased operations. Fortunately, ProList was able to provide services to Stockton's former clients without missing a beat. Stockton's most talented employees are now part of the ProList team, adding even greater depth to our abilities. We've also added new capabilities with continuous form laser imaging and more advanced bindery services. Stockton had a tradition of quality and service, and we look forward to continuing to provide exceptional quality and service to their former clients.

ProList enters 2010 with a solid financial condition, motivated and talented new employees, and exciting new capacities. Stay tuned for exciting new developments as the year progresses.

ProList Adds Digital Color Printing!

How many ways can this make *your* life easier?

Quality Service Guaranteed!

It has been a busy year already at ProList! On top of adding elements of the former Stockton to our capabilities, we have also added color digital printing to our services, with a new high speed Xerox Color Digital Printer. The advantages this can bring you are tremendous.

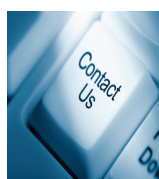

Of course you can now add color to all of your laser documents, from a simple signature in blue, to creating full color letterhead at the same time we print a letter. Or add all kinds of color elements to your mailing.

The print quality is spectacular, difficult for most to tell from 4-color offset printing. For short run printing, less than 10,000 pieces, you may find that our digital printing offers excellent value, particularly when you realize that you can create the piece and address it all in a single operation. Short a few hundred pieces on a component in a mailing? We may be able to print it at ProList at a comparable or lower price, and much more quickly.

The applications just go on and on. Give us a call, and we'll be happy to show you samples and discuss how we can help your mailings!

Our new printer can handle virtually any paper or card stock – especially yours!
